In our recently published illustrated key to the genera and checklist of the species of Chinese Eumeninae, we overlooked the paper by Kurzenko (1977). This was part of a series on the Insects of Mongolia, and contains important distributional information about Eumeninae in China. It was kindly brought to our attention by Dr A.V. Fateryga and we are glad to correct the omissions here and are grateful to use some additional comments by Dr Fateryga.

The following couplets should be changed or added to accommodate two missing genera:

23 Tergum I with two transverse carinae (23a) or with one (23a') **24A**
– Tergum I without transverse carinae (23aa) **27**
24A Propodeal dorsum without extending horizontal area (24Aa) **24**
– Propodeal dorsum extending horizontally, forming shelf-like area behind metanotum (24Aaa). [pretegular carina present] **25**

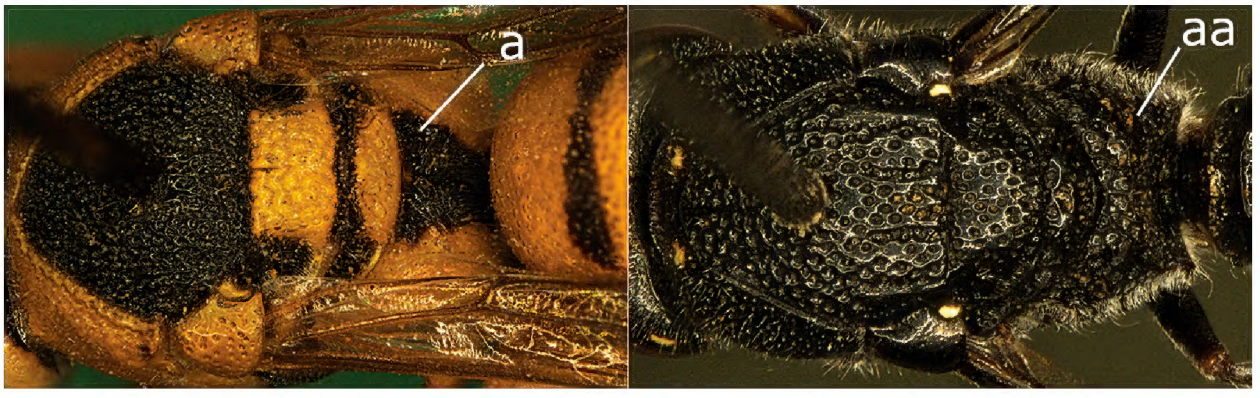

Figure 1. Mesosoma in dorsal view (**a, aa**). **a** *Jucancistrocerus* (*Eremodynerus*) *atrofasciatus* (Morawitz) **aa** *Pseudonortonia abbreviaticornis* Giordani Soika.

24 Tegula densely punctate, sieve-like, surpassing parategula posteriorly (24a); pretegular carina absent (24b); pronotal anterior carina complete laterally, humeri angular or pointed (24c); carina of tergum I at anterior narrow part of tergum [and carina indistinct in some species] (24d) ..... ***Jucancistrocerus*** **Blüthgen**
– Tegula usually finely punctate (24aa); pretegular carina present (24bb); pronotal anterior carina partly absent laterally, humeri rounded (24cc); carina of tergum I at about middle of tergum (24dd) ..... ***Stenancistrocerus*** **de Saussure**

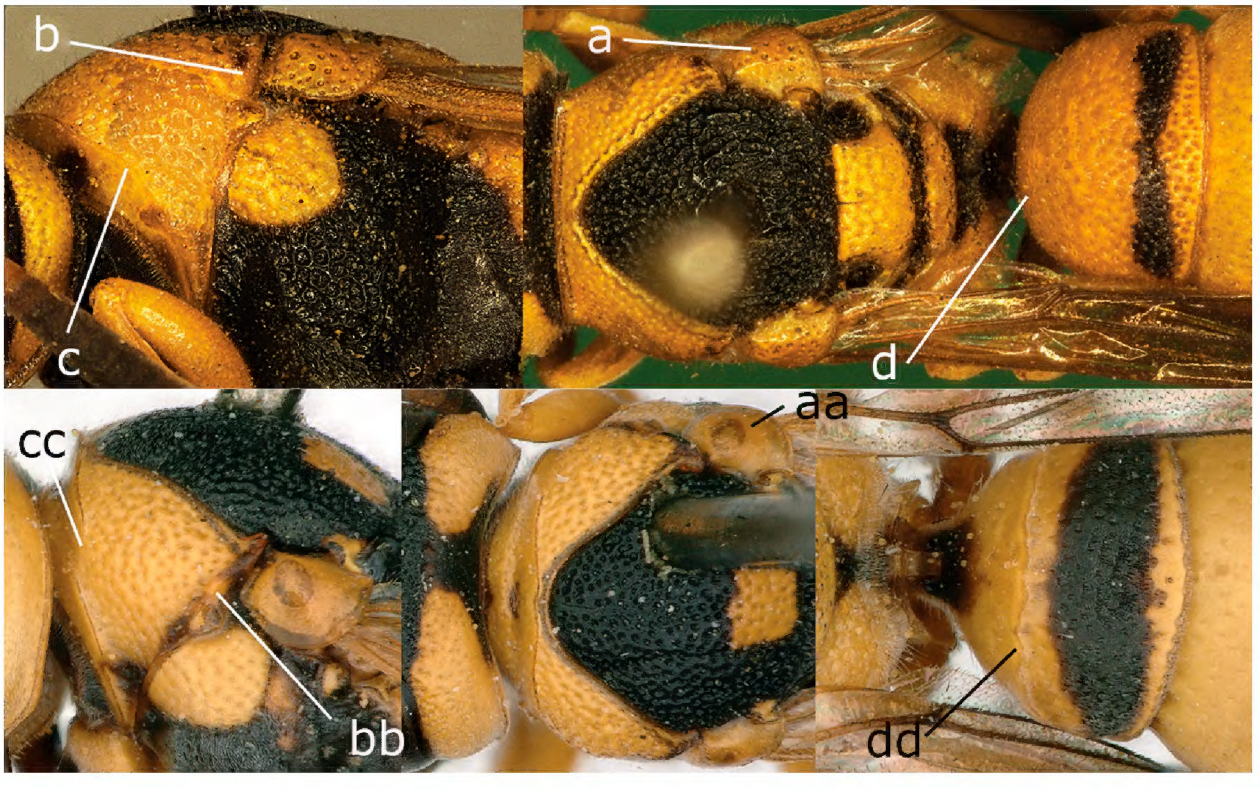

Figure 2. Mesosoma in lateral view (**c b, cc,** and **bb**) and in dorsal view (**a, aa**), tergum I in dorsal (**d, dd**). **a-d.** *Jucancistrocerus* (*Eremodynerus*) *atrofasciatus* (Morawitz); **aa-dd.** *Stenancistrocerus alluaudi* (Dusmet).

46 Metanotum between horizontal and vertical area with hemi-circular carina (46a) ..... ***Antodynerus* de Saussure**

– Metanotum between areas without hemi-circular shaped carina (46aa) .. 46A

46A Body mainly yellow with few black spots; pronotum anterior vertical plane usually without hyaline carina, with its anterior face densely punctate laterally (46Aa); cephalic fovea remaining far from occipital carina (46Ab) ..... ***Chlorodynerus* Blüthgen**

– Body mainly black with yellow patches; pronotum anterior vertical plane with hyaline carina, with its anterior face sparsely punctate laterally (46Aaa); cephalic foveae close to occipital carina (46Abb) ..... ***Euodynerus* Dalla Torre**

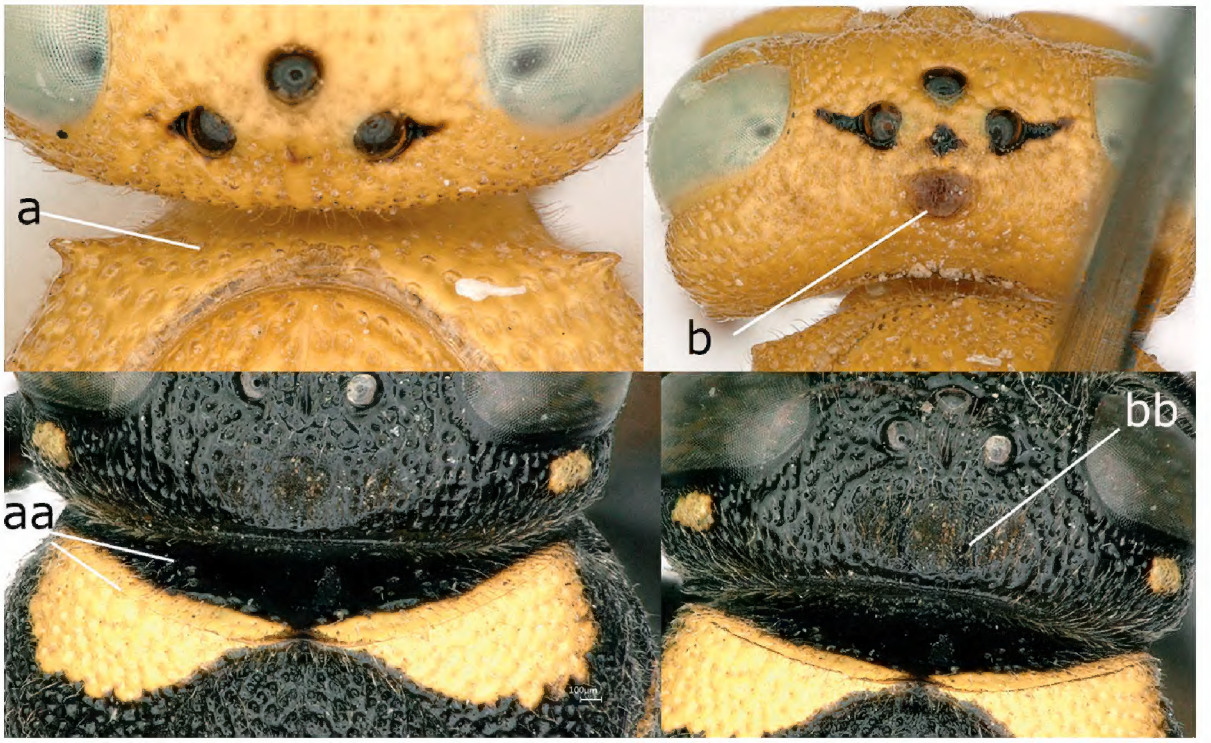

Figure 3. Pronotum anterior vertical plane (a, aa), head in dorsal view (b, bb). **a-b.** *Chlorodynerus diglaensis* (Blüthgen) **aa-bb.** *Euodynerus* sp.

The following species and subspecies should be added to the checklist. The omitted genera are *Cholordynerus* and *Stenancistrocerus*.

[*Ancistrocerus* Wesmael, 1836]

Ancistrocerus oviventris oviventrus (Wesmael, 1836)
Ancistrocerus raddei (Kostylev, 1940)
Ancistrocerus scoticus scoticus (Curtis, 1826)
Ancistrocerus tenellus (Kostylev, 1935)

[*Antepipona* de Saussure, 1855]

Antepipona tylocifica Kurzenko, 1977

***Chlorodynerus* Blüthgen, 1951**

Chlorodynerus Blüthgen, 1951, Boll. Soc. Entomol. Ital. 81: 67 (key), 75. Type species: *Odynerus chloroticus* Spinola, 1838, by original designation.

Chlorodynerus arenicolus (Kostylev, 1935)

[*Eumenes* Latreille, 1802]

Eumenes coarctatus ordubadensis Blüthgen, 1938
Eumenes mongolicus Morawitz, 1889

[*Euodynerus* Dalla Torre, 1904]

Euodynerus (*Euodynerus*) *dantici dantici* (Rossi, 1790)
Euodynerus (*Euodynerus*) *semisaecularis macedonicus* Blüthgen, 1951

[*Katamenes* Meade-Waldo, 1910]

Katamenes radoszkovskii Blüthgen, 1962 (*fide* Dr A.V. Fateryga: probably a synonym of *K. dimidiatus montanus* (Nurse, 1904))
Katamenes sichelii fulvus (Eversmann, 1854)

[*Leptochilus* de Saussure, 1853]

Leptochilus (*Lionotulus*) *habyrganus* Kurzenko, 1977
Leptochilus (*Lionotulus*) *kozlovi* Kurzenko, 1977
[*Onychopterocheilus* Blüthgen, 1955]
Onychopterocheilus (*Ghilarocheilus*) *turovi* (Kostylev, 1937)
[*Pseudepipona* de Saussure, 1856]
Pseudepipona (*Deuterepipona*) *herzi kozlovi* (Kostylev, 1937)
Pseudepipona (*Pseudepipona*) *herrichii mongolica* Giordani Soika, 1970
Pseudepipona (*Pseudepipona*) *kozhevnikovi* (Kostylev, 1927)
Pseudepipona (*Pseudepipona*) *tricarinata* (Kokujev, 1912)

Note. The species listed in the checklist belong all to the subgenus *Pseudepipona* de Saussure.

[*Pterocheilus* Klug, 1805]

Pterocheilus (*Pterocheilus*) *heptneri* Kostylev, 1940
Pterocheilus (*Pterocheilus*) *mandibularis* Morawitz, 1889
Pterocheilus (*Pterocheilus*) *quaesitus* (Morawitz, 1895)
Pterocheilus (*Pterocheilus*) *sibiricus sibiricus* (Morawitz, 1867)

***Stenancistrocerus* de Saussure, 1863**

Stenancistrocerus de Saussure, 1863, Mém. Soc. Phys. Hist. Nat. Genève 17 (1): 216. Type species: *Odynerus atropos* Lepeletier, 1841.
Stenancistrocerus (Paratropancistrocerus) transcaspicus (Kostylev, 1935)

[*Symmorphus* Wesmael, 1836]

Symmorphus allobrogus (de Saussure, 1855) (Dr A.V. Fateryga *in litt.*: reported as *S. bifasciatus* in Kurzenko (1977); true *S. bifasciatus* was reported as *S. mutinensis*)
Symmorphus crassicornis (Panzer, 1798)

Correction (by Dr A.V. Fateryga):

Brachyodynerus perrarus (not "*perarrus*") Kurzenko, 1977

Acknowledgement

We thank Dr Alexander V. Fateryga (Feodosiya, Crimea) for his extremely kind support in improving our key and checklist of the Chinese Eumeninae.
